

NeoBuk — the shop owner pays because we find his money

Kamau sells cement. Otieno owes him KES 24,000. The agent puts Collect on the home screen. If Otieno pays, Kamau keeps 24,000. He pays Codzure KES 2,500/month because one forgotten credit is more expensive than the seat. Confirm still required before a sale hits the book.

WHY YOU PAY US KES 2,500 / MONTH

You keep KES 24,000

Otieno has sat on your iron sheets for 12 days. We put the collect action in your face. If he pays, that is your money. Our fee is smaller than one forgotten credit.

If this never hits the book, you forget she owes you. That leak is why a notebook costs more than NeoBuk.

Ask Nyumbani — the property seller pays so she doesn't give the land away

Njeri was listing 1/8 acre Ruaka at 4.8M. Comps closed 6.1–6.5M. That gap is ~KES 1.4M. She also can't get viewings while the title is unverified. She pays KES 4,500 for a title-ready listing because underpricing and buyer fear cost her the sale. Codzure is paid by the seller, not by a chat.

WHY A SELLER PAYS US KES 4,500

You were about to list at 4.8M

Comps next door closed 6.1M–6.5M. Underpricing that plot costs you more than a hundred listing fees. Buyers also ghost unverified land. A title-ready listing sells. That is what you buy.
