

Who pays us

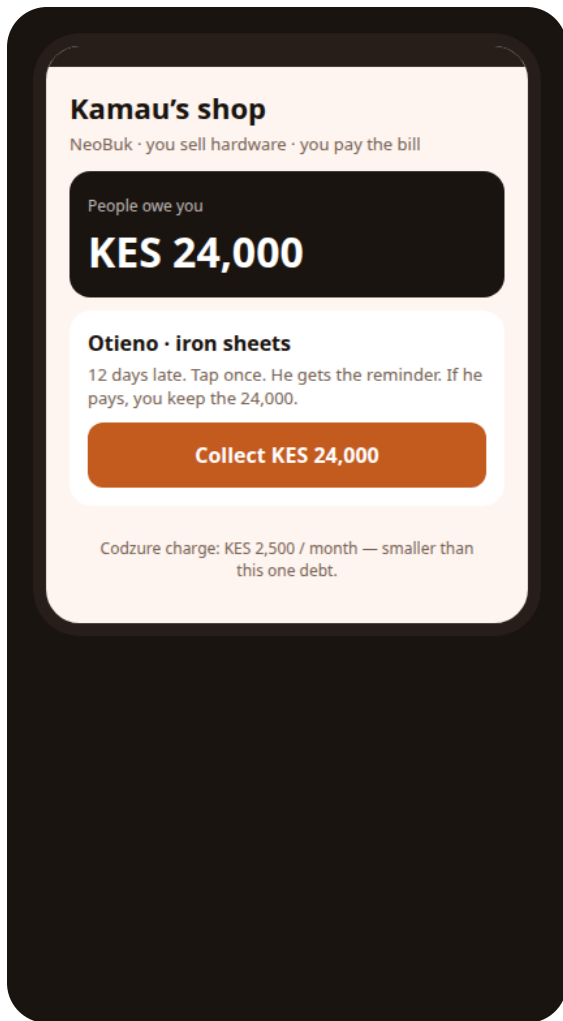

Codzure = us. We want money. Two apps. Two paying sellers.

NeoBuk: Kamau sells cement. He pays **KES 2,500/month** because the app puts Collect on Otieno's **KES 24,000**. Fee < one debt.

Ask Nyumbani: Njeri sells her Ruaka plot. She pays **KES 4,500 once** to list at the real price (6.2M not 4.8M) with a title pack. She was about to give away **KES 1.4M**. Buyers look free.

50 Kamaus/year $\approx$ KES 1.5M. 200 Njeris $\approx$ KES 0.9M. That is studio profit. Not chat.

Ask Nyumbani · you are selling land · you pay the bill

1/8 acre · Ruaka

You typed **KES 4.8M**

Nearby sold **KES 6.2M**

You would lose **KES 1.4M**

Buyers also skip plots with no title pack. Pay once, list at the real price, with the checklist on the listing.
